FLORENCE
SEWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the
AMERICAN INSTITUTE
NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,
Highest Premium! Gold Medal!

REASONS:
1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

BABY-DEATH.

Prepare the little coffin,
And lay the sleeper in;
Bury the treasure deep,
Away from the world of sin.
Your little flower, oh, mother,
Was never made to bloom
Amid earth's bleak chill wind,
Its coldness and its gloom.

They've crossed the wee, white hands
Over the tiny breast;
They've laid the little sleeper
Gently down to rest;
They've smoothed the soft, fine tresses
Over the small, pale brow
And in its baby coffin
Your idol slumbers now.

But, oh, you weeping parents,
Beyond that earthly mound,
Remember that your flower
Has life eternal found.
Remember that your bud
Is blossoming in the sky;
Remember that your angel
Now lives with God, on high

E'en though within the church yard
They've laid your babe to sleep,
Parents, lift your mourning brows—
No more in anguish weep:
Your loved one is not lost, you know,
But only gone before;
You'll meet your darling soon again
Upon a brighter shore.

Heaven's kingdom, we are told, is made
Of innocents like she;
Then why regret that she has gone
Where God and bless'd ones be?
Sweet harps that angel-fingers strike,
Are sounding in her ears,
And soon you'll join that Heavenly choir
Beyond this "vale of tears;"

Life's race on earth is quickly run,
And when for you 'tis o'er—
When safely you have passed death's stream
And reach the Heavenly shore—
White infant arms will be outstretched
To give you welcome there;
You'll meet your babe at God's right hand,
Eternal bliss to share

SOUTH AMERICAN REPUBLICS.

The little that is definitely known by the people of the United States concerning the character, social and domestic life, and political institutions and troubles of the inhabitants of the South American republics, has often been the subject of remark. Those books which have been written upon Spanish America have too often been deficient in just such information as is most desired and is most suggestive, and we are glad to find that Mr. Hassanick, who has just written *Four Years Among Spanish Americans*, has aimed at supplying this deficiency. Four years residence as United States minister to the republic of Ecuador gave him abundant opportunities for observation, and we find in his book much that is new and interesting in regard to our South American neighbors, their systems of government and their social and private life and customs.

HISTORY OF THE GOVERNMENT.

The South American Republics have had forty years trial of Republican institutions, but they have made little advancement in rgard to Republican principles. The trouble with them in the outset was that the people had been under a relentless Spanish despotism, and they were not prepared for an experience with liberty. Almost destitute of education and entirely without political or parliamentary experience or training, their minds were entirely unfit for the responsibilities they were called upon to assume. And so it has been that those Governments have always been in a state of anarchy and confusion, and revolutions and insurrections.

Chili is the most prosperous and respectable of the several Republics. Her white population is more industrious, enterprising and liberal than Spanish Americrns generally are, and the prosperity of the nation has been materially advanced by the large number of foreigners who have settled there. As Chili represents one extreme so Bolivsa represents the other. The constitution given to Bolivia by General Bolivar the liberator, was so visionary and impracticable that it was discarded in less than a year and the one which succeeded it was little better. The revolutions that have occurred in Bolivia have been numerous and bloody, and her party leaders have always been violent and vindictive. The Chincha Islands, with their vast guano deposits, have been a mine of wealth to Peru; but money has been thrown away in wanton extravagance, and the simplest internal improvements have been entirely neglected. New Granada is the only one of the republics that has established religious freedom, though Protestantism is freely tolerated in Buenous Ayres. Venzuela and Ecuador have been plunged in many wars, and selfish and ambitious men always find an opportunity to ply their arts in a South American republic.

HOW REVOLUTIONS ARE CARRIED ON.

The conspirators who have undertaken a revolution, generally begin with bribing a part of the garrison of an important post. In these negotations women take a most active part, and the women of Lima are famous for their skill in plotting the overthrow of gov ernments, When a revolutionary movement has gained a foothold somehwere, impressment of men and forced loans of money are resorted to, and war is commenced. White men of good families are exempt from the impressment system, but all others are swept into the ranks of either the revolutionary army or the one that upholds the government. To escape impressment men flee to the mountains, hide in churches and convents, and leave the country. In Peru alone there are over ten thousand Ecuadorians who left their own country to escape impressment. The soldiers get their subsistence from the people who live along the route they take, and when they get through fighting they are discharged without pay. The party which has succeeded in establishing or defeating a revolution, seize the goods and property of their opponents, and no respect whatever is paid to individual rights private and property. In times of war the houses of foreign ministers, consuls and other foreigners are eagerly resorted to by men and women who wish to secure safety for themselves or for their treasures. Each party is interested in maintaining the sacredness of these places of refuge, for the victorious party of to-day may be the vanquished one to-morrow. Almost every war is followed by a large number of executions, and men are oftentimes shot by the victorious party without taking the trouble of asking them their names.

MONARCHIAL IDEAS GAINING GROUND.

The experience of South American Republics has been just such as would naturally raise up advocates of a monarchial system of governments. The Governments have to strain every nerve to maintain a bare existence for enemies are plotting against them on every hand. They can do nothing for the development of national resources, or for the improvement of the condition of their citizens, and the people cite these facts as proofs that a radical change is needed. The monarchists say that the people cannot much longer exist under such governments as they have, but they are not strong enough to dethrone the Republics and set up monarchies. They would welcome foreign intervention, but what foreign power would undertake such a work? Possibly a mass emigration of a vigorous foreign element might save and regenerate the South American Republics, but there are more inviting fields for men who are capable of doing such a work as is needed there elsewhere than in South America. So little confidence do people themselves have in their Governments, that every person of wealth wants to make himself a foreigner. In time of war the property of foreigners is secure from forced loans and robbery, and many of the wealthiest citizens go abroad and make themselves foreign subjects, and then return and carry on their business. The American Minister at Ecuador under President Buchanan once saved a man $10,000 by allowing him to place an American flag over his farm buildings.

AGRICULTURE AND THE ARTS.

Quito, the capital of Ecuador, has about 40,0000 inhabitants. The pure white race is in the minority in numbers but constitute the governing class. The whites are generally the descendants of Spaniards and other Europeans, have good natural capacity, but are deficient in education and enterprise. There are few pure negroes at Quito, but there are a large number of pure Indians, and also of the whites and Indians and negroes. The old Spanish families are generally very aristocratic, and the poor whites and all persons who are not whites are seldom received into good society at Quito. There is great aversion to labor among the whites, and foreigners who work with their hands are reproached with "working like Indians." Scarcely any progress has been made in agriculture in Ecuador since the conquest. Wooden plows are used, corn is shelled by Indians dancing on the ears, grain is threshed by driving horses over it, and spades are entirely unknown.

The same helplessness prevails in regard to the mechanical arts. There is not a good shoemaker in Quito, and the native shoemakers do not even know how to measure a foot. The mechanics always demand pay in advance, and their prices are very exorbitant. Very often after payment has been rendered the work is left undone, and the police have to be called in. The mechanics generally live only from one day to another, and have no enterprise about tools or work. Cabinet makers and carpenters use little pieces of wood and straw in making measurements, and weeks are required for the completion of a job that would take but a few hours in New England. Silver and goldsmiths and wood carvers are about the only artizans who manifest any skill. Whenever the Government wants any work done, it siezes all the masons and carpenters that can be found, selects the best of them, and pays them just what wages it chooses. Indians are generally used as beasts of burden, and they are kept to their tasks by the whip of the overseer. The natives of Quito are considerably proficent in needle work and embroidery, and they manufature large quantities of fine lace.

PAINTING, THE PROFESSIONS, ETC.

Painting is considerably cultivated and there are some painters there who are men of genius. They have, however, no originality, and all their works are copies from other paintings. The natives seldom pay more than $16 or $20 for a large painting, and pictures that would sell here for $200 can be easily bought at Quito for $30.

Young men of good family are always sent to college, or to the university, for the purpose of acquiring the title of "Doctor." Every white person at Quito, who is respectably dressed, may be safely supposed to have this coveted title, Lawyers are innumerable, but they have very little to do. The temptation of poverty is pleaded as the excuse for almost every crime, and such clients cannot be very profitable. Lawyers of established reputation and good practice are thought to do very well when they have an annual income of from $200 to $600. Only about one-fifth of the population of Quito ever employs a physician, and when patients are not dangerously sick the physicans will have to be sought every day at their houses. Merchants hardly ever open their stores after nightfall, and are absent from them for two or three hours during the day. Nobody seems to be in a hurry or to care about making money. There are no common or free schools at Quito, and vasts numbers of the population can neither read nor write. In the elementary schools reading, writing, arithmetic and religion are taught, and in the higher schools Latin and Greek monopolize the student's attention, to the neglect of the natural and mathematical sciences. In the University of Quito the salaries paid the officers and professors range from $200 to $450 per year.

PLACES OF WORSHIP AND THE CLERGY.

The ecclesiastical edifices are nearly the only buildings in Ecuador worthy of architectural notice. At Quito there are some very extensive convents and many costly churches. The convents and nunneries sometimes cover eight or nine acres of ground, and large gardens are attached to them, where each nun has a little pavillion or bower, which is her own private property. The monastry of San Francisco at Raito is one of the largest in the world. The parochial chapels are very plainly built, and are little better than barns. There are in Quito twelve convents and nunneries, and one cathederal, and there are over four hundred priests, monks and nuns. The convents are supported by revenues from their estates, the bishops by tithes levied upon the agriculture of the country, and the curate by fees and small taxes. The clergy are notoriously ignorant and immoral, and the monks often indulge in lengthy sprees. On these occasions they generally disguise themselves, so that their ecclesiastical character may not be known to the people.

"THE PAPER DON'T SAY."—A few evenings since, a Mr. Slocum was readind an account of a dreadful accident at a factory at L——, and which the editor had described in a great many words.

"I declare, wife, that was an awful accident over at the mill," said Mr. Slocum.

"What is it about."

"I'll read the account, wife, and then you'll know all about it."

Mr. Slocum began to read:

HORRIBLE AND FATAL ACCIDENT.—It becomes our melancholy and painful duty record the particulars of an accident that occured at the lower mill, in this village yesterday afternoon, by which a human being, in the prime of life, was hurried to that borne from which, as the immortal Shakspear says, "no traveler ever returns." Mr. David Jones, a workman, who had few superiors, was superintending one of the large drums' ("I wonder if 'twas a snare drum, such as the soldiers have," said Mrs. Slocum.) when he became entangled. His arm was draw around the drum, and, finally, his whole body was whirled over the shaft at a fearful rate. When his situation was discovered he had revolved with immense velocity about fifteen minutes, his head and limbs striking a huge beam a distinct blow at each revolution.

("Poor fellow, how it must a'hurt him," said Mrs. S.)

When the machine had been stopped it was found that Mr. Jones' arms and legs were macerated into a jelly.

("Well, did'nt it kill him?" asked Mrs. Slocum with increasing interst.)

Portions of the *dura mater*, *cebrum*, and *cerebellum* in confused masses, were scattered about the floor; in short, the gates of eternity had opened upon him

Here Mr. Slocum paused to wipe his spectacles, and his wife seized the opportunity to press the question.

("Was the man killed?"

"I don't know; havn't come to that place yet; you'll know when I've finished reading the piece.

(And Mr. S. continued reading.)

It was evident when the shapeless form was taken down that it was no longer tenanted by the immortal spirit—that the vital spark was extinct.

("Was the man dead? That's what I want to know?" said Mrs. S.

"Do have a little patience," said Mr. Slocum, eyeing his better half over his spectacles. I presume we shall come upon it soon.

(And he went on reading.)

This fatal casualty has cast a gloom over our village, and we trust that it will prove a warning to all persons who are called upon to regulate the powerful machinery of our mills.

"Now," said Mrs. Slocum, perceiving that the narative was ended, "now I should like to know whether the man was killed or not."

Mr. Sloccum, looked puzzled. He scratched his head, scrutinized the article he had been perusing, and took a careful survey of the journal.

"I declare, wife," he said, "it is curious, but really the paper don't say."

A GOOD story is told of a certain Colonel in the late war. The aforesaid Colonel was riding in a stage coach, with several other passengers, when he accidentally dropped his hat outside of the coach. Putting his head out of the coach window he exclaimed in a stentorian voice:

"Charioteer, pause! I have lost my chapeau."

The driver paid no heed to the demand. Again the pompous fellow authoratatively spoke:

"Charioteer, pause! I have lost my chapeau."

No attention being paid by the driver to this last command, a plain blunt man who had become disgusted with his fellow travelers silliness and pomposity, put his head out of the window and said:

"Driver, hold on! this d—n fool has lost his hat."

This was perfectly intelligible to the driver, expletive and all, and the hat was secured.

THE spot where Lewis and Clarke held their famous council with the Indians is a subject of controversy in the northwest. It was held at Fort Atkinson, which probably stood where Omaha now is.

THE EIGHT HOUR LAW.—The following is the text of O'Malley's Eight Hour Law;

Section 1. Eight hours' labor shall be deemed and held a legal day's work in all cases within this State, unless otherwise expressly stipulated between the parties concerned.

Sec. 2 Any person of perons having in his, her or their employ, or under their control, any minor, either as wards or apprentices, who shall require of them any more than eight hour's labor in any one day, shall be deemed guilty of a misdemeanor, and punishable by fine or imprisonment.

Sec. 3. The provision of this act shall not extend to agricultural, vinecultural or horticutural labor, or to the services of household or domestic servants, nor to any contracts already made, but not yet performed.

Another section, offered as an amendment, makes eight hours a day's work for all persons employed by the State.

To cure a fast man. Bridal him.

SENATOR MACLAY.—The recently elected Senator, Hon. Charles Maclay, of Santa Clara County, who in all his previous political history, since the beginning of Republicanism in this State has been ranked among the most radical of that party, he was elected on that ticket in the fall of 1861 to the Assembly, and made as radical speeches as any other Republican could make. He was also (and may be yet) a local preacher belonging to the old "abolition" Methodist E. Church—and we suppose must have been on a journey last Fall from Jerusalem to Damascus, when he suddenly discovered that he was and had been blind, and while in his befogged condition we fancy he heard a voice, which he recognized as of one Jefferson, whose surname was Davis, saying, "Charles, Charles, why persecutest thou me. Arise and go unto one Andrew, whose surname is Johnson, and he will tell thee all that thou shalt do." And he arose, and Andrew telegraphed to him, (through some Democratic spiritual medium no doubt) to leave the Republicans, and join the Democrats, and also to join the Methodist E. Church SOUTH, and then he should be Senator and have any quantity of loaves and fishes—and Charles obeyed.—*Telegraph.*

AN amusing story is now going the rounds, of a well-known Boston clergyman, who, though a most esteemable man, has less regard for appearance than most of his brethren. Not long ago the genial humorist, concious of the rectitude of his intentions, went into the bar room of the Tremont and ordered a "snifter." By some mistake he appropriated the glass of an individual near him, whose conversation and appearance stamped him as what Artemus Ward would have called a "carnal cuss." Looking fiercely at the mild-eyed minister, he exclaimed with an oath:

"That was my horn you drank."

"Ah, my friend," returned the reverend monitor, "does not the Scripture say. 'The horn of the ungodly shall be put down?"

It was a repartee worthy of Sidney Smith and being delivered with the dignity befitting the solemnity of the occasion, produced a marked impression.

PRINTERS.—Printers are unlike other classes of men. Their vocation imparts to them an intelligence that does not result from any other business. Dealing with language exclusively, in its combination of letters, words, sentences and paragraphs, they are constantly brought into communion with thoughts and their workings, and thus insensibly become imbued with the ideas of those minds whose creations they help to embody into those forms that give them to the world. They literally get grammar at their fingers' ends while picking up the types that form the sentences that are grammatical. Spelling comes to them as natural as breathing, for they fall into correct orthography through force of habit. The characteristics of printers are not so favorable to personal thrift as those of other professions. They partake of the nature of artists in some degree, and are generally liberal to a fault, thoughtless of the future, and frequently improvident for the present—flush when in a good situation, and deadbroke when on a tramp. They may be said to be the working Bohemians of the world of operatives.

SENTIMENT DISCOUNTED.—A romantic young lady, whose mind was deeply imbued with reading the "Sorrows of Werter," and other novels of the exquisitely sentimental school, approached a stalwart Indian, whose somber visage indicated suffering of some kind, and addressed him thus:

"Why droops the eye of the forest chief? Does the memory of the red warrior revert to the past, when his proud ancestors roamed through the forests and enjoyed the primeval glories of nature, now sadly marred by axe and plow of the unsympathizing rustic?"

The answer of the forest chief with drooping, eagle eye, was a little startling to her refined sensibility:

"No! white man gib Injin too much whiskey. Injin big drunk last night; Injin sick; bye-bye Injin puke; den Injin get well again, ugh?"

The Boise City *Statesman* says in regard to the editor of a contemporary: "There was a fellow so "tired" at the party last night that he had to lean and hold upon gentlemen to enable him to walk across the room. We are not saying who it was but he jabbers latin at us sometimes and calls us familiar names by way of assuming to be smart."

Lucy Stone said: "There is cotton in the ears of a man, and hope in the bosom of a woman." All very well only Lucy made slight mistake in regard to the location of the cotton.

A YOUNG man recently wrote to his sweetheart, saying: "There is not a globule of blood in my heart which does not bear your photograph." He had it very bad.

DUTCH FLAT ENQUIRER.

SATURDAY, FEB. 1, 1868.

THEATRICAL.—On Monday evening last the Chapman Family, assisted by Mrs. Amy Stone, and a good company, performed in this place. The play chosen was that of Fanchon the Cricket. Mrs. Stone as Fanchon was excellent, fully sustaining the reputation she has built up on her own merits in the State of Nevada and elsewhere. Her elocution, which amounts to almost every thing in the rendering of a part, could hardly be surpassed. Mr. Gregory as Landry, seems to us to have been an unhappy choice, he is altogether too stiff, his voice is too much of a monotone to be successful. It must be exceedingly trying to the leading actress, who is throwing her whole soul into the piece, to have her questions, which should be answered with spirit and enthusiasm or determination, as the case may be, replied to in a common conversational tone. While we give Mr. Gregory the credit of being a good amateur, we would also say that he has much to learn ere he can be cast successfully for a leading character. Still, Mr. Gregory can and will accomplish much greater things with practice. Mr. Stone as Didier, Landry's brother, rendered the part well, the character is one suited to him. Mr. G. H. Foster as Father Barebaud, paternal sire of Didier and Landry, rendered his part with more than ordinary skill, although he has been engaged in the "legitimate," but a short time—his superiority as an actor is being rapidly developed—although he is a young man, he plays the character of old men with singular excellence; he has a bright future before him, if he will but follow the path which he has now chosen. Mrs. Chapman as Fadet, the Witch of Loire, did well, her harsh grating voice, seems to be expressly designed for a witch. Mrs Jacoby's superb figure makes her an excellent Madelon Callard. Other characters by the company were rendered in good taste.

On Tuesday evening the Military drama of the French Spy was played with much effect, Mrs. Stone acting as the French Spy, Mathilde de Merie, Henri St. Alme, and Hamet. She acquitted herself with great credit. Mr. G. R. Cain as Gen. Damremont, and also as the Dey of Algiers, played his part well, he has an easy manner, a strong clear voice, and on the whole Mr. Cain is a promising young man, and will succeed if he continues as he has commenced. Want of space prevents us from reviewing the parts at length, but suffice it to say that the performers all acquitted themselves with credit.

On Thursday night a complimentary benefit was tendered Mrs. Stone, on which ocasion Fanchon was again presented. Mrs. Stone is by far the best actress that has appeared in this town within our recollection, and she is accompanied by a company far superior to the majority of those which are to be found in our large cities. The Orchestra of the company is led by J. P. Meader, a very fine pianist. We hope that they will make it convenient to give us another call soon.

SENSIBLE.—In speaking of the special exemption from forced sale, we find the following in the Solano *Press*. We do not know but printers should have equal privileges with artizans or mechanics: "We observe that several journals with commendable good sense are calling upon our legislators to exempt printers' materials to a reasonable amount, in the bill now pending before the Legislature, in which it is proposed to increase the number of articles to be exempt from execution and forced sale. Such a request is eminently proper and just, for there is no class of the community who do more for the public weal unthanked and without compensation than the negleced and toiling printers. They are, by virtue of their station, sentinels on the watch-tower of public safety; originators and aiders of schemes of public usefulness, and are ever ready to lend a helping hand in the cause of education and science, and in the promotion of public morals; and lastly, there is not a public man in the State, from Governor down to township officer, who does not owe a debt of gratitude for his political advancement and present prosperity to some friendly and unselfish printer, and as members of the Legislature are numbered in this category, now is the appropriate time for them to discharge a portion of the accumulated debt due to their unprotected and impecunious typographical friends."

GOLD RUN MINES.—Simultaneously with the reduction of the price of water at the above mentioned place, several companies have commenced work on their claims, and others are getting in readiness for work. Among the claims now at work, are C. Carr and Sacks & Co. The prospects of the claims at the above place are represented as being very flattering.

WATER REDUCED.—The Miners, ditch at Gold Run, has reduced the price of water to the rates demanded by the Miners Association of that place, that is, nine cents per inch for ten hours and fifteen cents for twenty-four hours.

ACQUITED.—Selmon who was arrested for petty larceny a short time since was discharged by the court as "not guilty."

PEOPLE seldom improve when they have no model but themselves to copy after.

RAILROAD FOR IDAHO.—The citizens of Idaho held a convention, which met on the 6th of January, at Boise City, and continued in session three days, for the purpose of considering the question of the feasibility of building a branch railroad through that teritory. A memorial was adopted to Congress asking aid for the construction of a railroad to connect the Union Pacific Railway with the head waters of the Columbia river. The route proposed is "from a point connecting the Union Pacific road by the most practical route to the valley of the Snake river, thence westwardly down said valley via Boise City the capital of Idaho, to the Columbia river, by the most direct and practicable route." We do not doubt that the demands for a road, through the country named, are very great, but we also think that it would be very bad policy in the Government to grant aid to road that can never be of more than local interest. The construction of the Central Pacific and Union Pacific railroads were works of national interest and, hence, deserving Governmental aid. It would not be considered a very brilliant financial movement on the part of the Government to grant aid to any local road that should request it. The demands for the Idaho branch are great enough to pay any private company, which may have the energy and means, to build it. We think that even though the Government should not advance one dollar of credit toward the enterprise, that the demands for the road will compel its construction within two years.

LETTER FROM SACRAMENTO.

SACRAMENTO, JAN. 30, 1868.

EDS. ENQUIRER:—The long talked of "Bribery Pamphlet has made its appearance and General Volney E. Howard is fast marching on to public noterity. In this his Great Book he makes no direct nor specific charge against any one but by inuendo attempts to force the Legislature into an investigation. This certainly comes in very bad taste from a defeated Senatorial aspirant, particularly when in his "Great Book" he takes care to say that he cannot make affidavit to any charge nor against any member simply because such affidavit must be made upon information and belief. Then he does not believe what he attempts to show by his Great Book or else he attempts to show nothing. Before reading this new comedy, which by the way is a great *Farce*, I was in favor of an investigation, but seeing how little was shown in what was looked for as a startling collection of facts I became disgusted with the whole affair, and now regard it as a misdirected effort of a jealous aspirant to purchase notoriety. On the motion to indefinitely postpone the resolution to enquire into the charges of bribery in the Assembly but two Democrats and three Union men voted Aye—so the question is still in the hands of Volney E., his Big Book and the Legislature.

The special Committee on fees and salaries have introduced a bill in the Assembly making the fees and salaries of county officers uniform throughout the State, and very materially reducing the fees as they now exist in most of the counties. It is expected that this will meet with considerable opposition, but at present everything looks favorable to its passage, if it does, the successors to the present county officers will have to go on half pay. A bill is also in preparation to reduce the salaries of State officers, if the two pass the burdens of taxation will be materially relieved.

ANOTHER "CAPITAL" BILL.

Mr. Tully to day introduced into the Assembly a second bill to provide for the location of the seat of Government of this State. Under this bill the most liberal bidder will get the prize. I understand that one of the features of this bill is that the city seeking to obtain the coveted bone must bid $400,000 for it.

Assemblyman Rollins to-day presented a petition signed by three hundred citizens of the eastern portions of Nevada and Placer counties, praying for the organization of a new county with the name of "Alta," and to embrace Meadow Lake and Cisco and all portions east of those places to the State line. A bill for that purpose is in course of preparation and will shortly be presented.

The contested election case of *Aspinwall vs. Frisbie* was settled to day. Frisbie retaining his seat. The case of *Mason vs. Tuttle* is set for Friday the 7th of February, and will be argued in the Assembly by J. W. Coffroth for Mason, and Mr. Tuttle for himself.

The weather has been pleasant for a few days and the streets are drying up.

A. LOPHER.

FATAL ACCIDENT.—On Wednesday last, two Chinamen who were engaged in assisting the snow-plow in removing the slide which occurred above Emigrant Gap, got up on the bank above the plow and the bank caved, throwing them under the wheels of the locomotive. One of them was killed immediately and the other mortally injured.

There will be preching at the M. E. Church, Sunday Feb., 2d, morning and evening, subject: "Resurrection of the Body." Also, meetings on Tuesday, Wednesday, Thursday and Friday evenings. All are invited.

DROWNED.—John Williams was drowned in attempting to cross the Calaveras river, January 28th, near Jenny Lind. His body was carried down stream about a mile, where it lodged upon a sandbar.

Chiropodists are fond of toe-martyrs.

THE BRIBERY PAMPHLET.—Volney E. Howard's long threatened pamphlet has appeared. It is said to contain a mass of matter, in which the venom, ire and hatred of the author protrudes so unmistakably as to rob it of all its power. Howard feels sore over his defeat, and probably takes this method of getting even. The Nevada *Gazette* says: "We have read the celebrated pamphlet, attributed to Volney E. Howard, which was at first suppressed and then given to the public. The public had been lead to believe that it contained some tangible and definite charges of bribery and corruption; and even the Examiner stated that its publication would present the charges in such a light as to force a legislative investigation. The publication, which, as we have before stated, is in the form of a play, has some good hits, and the manner in which the successful candidate is suposed to have succeeded in enlisting the Catholic clergy, the chivalry and war Democrats, Republicans, negroes and Chinaman in his cause, is very cleverly taken off, but would apply to nearly all politicians as well as to Casserly. There is much talk about the payment of money for votes, but the scenes and dialogues are evidently imaginative. Having introduced a Catholic priest as one of the characters in the play, the the author has the weakness to add a note in conclusion stating that "no reflection is intended on the Catholic Church," as if he thought Catholic readers were unable to discriminate between the church and a priest."

MITE SOCIETY.—This Society met at the Golden Eagle Hall immediatly after the theatre on Tuesday evening. Owing to the lateness of the hour but a small praty were present, but those who did attend however, had a pleasant time. We understand that the next meeting of the society will be on Tuesday evening at the residence of Rev. J. E. Benton.

WE notice in the Legislative proceedings published in the *Union*, that Assemblyman Waldon of this county, has presented a petition in the House from eighty-six citizens of Lincoln, praying for a reduction of fare on the Central Pacific Railroad. The petition was refered to the committee on Corporations.

ROBBERY.—On Wednesday night the shoe shop of J. F. Hoos, was entered by some light-fingured individual or individuals, and four pair of boots stolen.

ALLEN'S LUNG BALSAM.

The Remedy for Curing

Consumption, Asthma, Croup, Diseases of the Throat, Bronchits, Pains and Oppressions of the Chest or Lungs, Difficult breathing, and all Diseases of the Pulmonary Organs,

ITS action is expectorant, alterative, sudorific, diaphoretic, and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm; CHANGES THE SECRETIONS and PURIFIES the BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and imparts strength to the whole system. It is warrauted to give entire satisfaction, even in the most confirmed cases of consumption, and not to produce costiveness (as do most remedies) or effect the head, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, although an active and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

A TRUE STORY.—Tripping down the stair way once long ago, we fell, shattering a large, lighted fluid lamp. In a moment the blaze wrapped us aorund like a fiery serpent. Every tragedy has a comic side: Bridget tossed the baby on the bed, and ran for water; aunt Mary seized the spread to extinguish the flames and pulled baby down on the floor; Jane came up from the kitchen and put out ever light then burning "because the house was afire," and Bridget returning with a tub of water, tumbled down, upset the water, and bumped her nose. Meanwhile, we rolled over and over on the parlor floor, till the flame was extinguished, when one arm was found to be terribly burned.

Then how quickly Davis' Pain Killer soothed the pain, and to-day, with a hand and arm unmarred by any scar, we write the praises of Pain Killer, valuable for many an ill and ache;—*Manchester (N. H.) Every Month.*

COMMUNICATED.

EDITOR ENQUIRER.—Amy Stone has been playing "Fanchon" and the "French Spy" here and at Gold Run during the week. She is traveling with a company styled the "Stone and Chapman Troupe" consisting of fourteen performers, forming a heterogenious collection of nameless actors, supernumeraries and stage-struck amateurs. They came from Virginia City to the Flat, and left here for You Bet, purposing a two months' tour of the mountain towns of the State, and then a trip to Oregon In explanation of the strange "support" with which Amy Stone is traveling, it is stated that several of the original members of the troupe "drew out" in Virginia City, and that their places have been filled by "pick ups" on the line of travel, who are not yet quite "up in their parts." "Fanchon" was presented here on the first night, and drew a good house, and was succeeded by the French Spy which drew a still better house, when the troupe moved on to Gold Run. After its departure from here, a singular commotion became apparent among the bachelor commuuity of the place, and a little investigation served to show that the "Cricket" had bewitched the tender sensibilities of all the old single-sticks in town. With amusing distress and tell-tale emotion a congress was convened by them wherein it was resolved to blend their voices in bewitching chorus and chirrup the "Cricket" back again. The ruse was entirely successful and the most amusing feature in it, was the sober "notes" of some ancient married cits. "rung in" to the "call" by the love inspired management to give it tone, and whose neglected spouses never "got to see" the "Cricket" at all. MOMUS.

We should judge from the tenor of Momus' communication that he was not honored with a "dead-head" ticket. —ED. ENQUIRER.

REESE RIVER SPORTS.—The Austin *Reveille* of the 20thult., says:

Nearly the whole of yesterday the sleigh-bells jingled pleasantly on Main street. We had not imagined there were so many sleighs in the neighborhood. They were of divers patterns, from the hastily improvised and somewhat ludicrous affair to the pretty, jaunty, dashing cutter, which skimmed over the surface of the snow as lightly as a thing with wings. In this latitude the feeling is almost universal that sleighing is the most delightful of sports; and if the price paid for its indulgence be an index of its quality, it is certainly entitled to the front seat. The charge for a sleigh and span of horses is ten dollars in gold coin for one hour, and, on the principle that it is the highest fun, the same rate is charged for several hours. The ground was not in the best condition for the full enjoyment of sleighing, for although the snow had fallen to the depth of eight or ten inches, it did not pack but was light and dry like ashes.

THE announcement that J. Ross Browne has been nominated and confirmed as Minister to China is somewhat unexpected. Nevertheless a much worse appointment might have been made. Ross Browne is a great traveler, but he has a way of always traveling with a Government commission in his pocket. It would not surprise us if he, too, in a short time, were to throw up his new position and become a roving Embassador of his Celestial Majesty.—*Times.*

has favored us with a large and bounteous supply of late Eastern publications, among them we find *Harper's Weekly, Frank Leslie's Weekly Literary Album, Chimney Corner, Godey's Lady's Book,* etc., Stratman is the prince of news-men on the Pacific coast.

BEAUTIFUL WEATHER.—Since Monday we have been enjoying splendid weather. The long seige of snow and rain which we have had, made us appreciate a few clear days more perhaps, than we otherwise would, but we do think that the weather during the last few days has been the most pleasant we ever enjoyed.

THE Santa Clara *News* man has ordered a pair of gum boots, and a row boat in anticipation of the removal of the State capitol to that place. We would also suggest to him the propriety of his engaging a room, at Stockton, in case his disappointment should be too great, and he lose the use of his mind, if there is no removal.

SNOW-SLIDE.—A snow-slide occurred just above Clipper Gap, during the early part of the week, causing a detention of the cars from above.

NEW BANK.—The business men of Stockton are about organizing a bank to be called "The Stockton Bank."

A BAD husband beats a wife, and a bad wife beats the devil.

QUERY.—Is a wife transported when her husband goes abroad?

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sickand troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natu result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHARES H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francico. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, next door to the Occidental Hotel, San Francisco.
Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

SARSAPARILLIAN!
(PREPARED FROM VACUO.)
The Curative Principle of Sarsaparilla enters largely into the composition of
R. R. R.
RESOLVENT.
One Bottle of Resolvent Better than Ten Large Bottles of Sarsaparilla.
One Bottle will Purify the Blood, and Expel Corruption from the Body!

So swift is this remedy in entering into the circulation, that it has been detected in the blood and urine in six minutes after it has been taken.

☞ 1 BETTER THAN 10 ☜

R. R. R. Resolvent cures with astonishing rapidity every form of Chronic, Scrofulous and Skin Diseases, and exterminates all corruption from the human system.

One bottle of Dr. Radway's Renovating Resolvent contains more of the active curative principles of the best Jamaica Sarsaparilla, (Sarsaparillian,) than Ten of the largest size bottles of the mixture sold under the name of Sarsaparilla.

The process adopted by Dr. Radway in securing extracts (prepared in vacuo,) of Medicinal Roots, Plants, Herbs, and other vegetables possessing great curative properties over Scrofula, Chronic, Syphilic and skin diseases, that enters into the composition of the Renovating Resolvent, produces only ONE OUNCE of the pure extract out of 20 lbs of crude roots. The Inert matter that enters so generally in the large bottle mixtures and prepared under the officinal or pharmacopeia formula, is, by Dr. Radway's process, cast aside as rubbish.

One teaspoonful of the Resolvent is sufficient for a dose for all Skin, Salt Rheum, Pimples, Blotches, Sores and Eruptions of the Skin, Humors in the Blood, &c.

One teaspoonful, three times a day, will, in a few days, make the Blood pure, the Skin clear, the Eyes bright, the Complexion smooth and transparent, the Hair strong, and remove all Sores, Pimples, Blotches, Pustules, Tetters, Cankers, &c., from the Head, Face, Neck, Mouth and Skin. It is pleasant to take, and the dose is small.

The first dose that is taken seizes on the disease and commences its work of resolving away all diseased deposits, Purifying the Blood, and driving corruption from the system.

The Renovating Resolvent, if used in any of the following named complaints, will positively cure the patient:

Skin Diseases, Caries of the Bones, Humors in the Blood, Constitutional, Chronic and Scrofulous Diseases, Scrofula, Syphilis, Fever, Ulcers, Sores, Salt Rheum, Erysipelas, Rickets, Scald Head, Cankers, Sore Legs, White Swellings, Glandular Swellings, Boils, Nodes, Sore Ears, Sore Eyes, Strumous Discharges from the Ear, Opthalmia, Itch, Constitutional Debility, Skin Eruptions, Wasting and Decay of the Body, Pimples and Blotches, Tumors, Cancerous Affections, Dyspepsia, Water Brash, Neuralgia, Chronic Rheumatism and Gout, Diseases of the Kidneys, Bladder, Urethra, Strictures, Difficulty of Passing Water, Calculous Deposits &c.

ALARMING INCREASE OF BLADDER, KIDNEY and CALCULOUS DISEASES.

The annual reports of the Health Commissioners of different cities, show a great increase of deaths from diseases of the Kidneys and Urinary Organs—RADWAY'S RENOVATING RESOLVENT is the only remedy *that has dissolved* calculous concretion.

Its SOLVENT, *diuretic, lithontriptic* and *tonic* properties exceed that of any medicine in the world; it readily assimilates with the fluids, and promotes their exit through the Kidneys, Urethra and Bladder, removing calculous obstructions, and correcting all derangements of these organs.

So swift is this remedy in passing into the circulation, that it has been detected in the urine in six minutes after it has been taken; by adding to the liquid when cold a few pieces of starch, then a few drops of nitric acid, the liquid will change to a blue color. When brick dust, or a thick white deposit, like the white of an egg, (albumen,) is detected in the vessel, or bloody discharges from the urethra, or micturating in drops, accompanied by a burning or scalding pain—the RESOLVENT should be used and R. R. RELIEF rubbed on the spine. &c.

RADWAY'S PILLS being an aperient, soothing, and tonic laxative, are the only purgatiye medicine safe to administer in these difficulties; their mild soothing and healing properties produce evacuations without irritating the mucous membranes of the bowels, kidneys, ureter, bladder, &c., or causing straining when at stool.

Price of Resolvent, $1 per bottle, or 6 for $5. Pills 25 cts. R. R. Relcif, 50 cts. per bottle. Principal Depot, 87 Maiden Lane, N. Y. Sold by all Druggists and Country Merchants.

REDINGTON & CO.S' COLUMN.

REDINGTON & O.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs
As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.
It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.
It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

STOP THAT COUGHING!

SOME OF YOU CAN'T, AND WE pity you. You have tried every remedy but the ONE destined, by its intrinsic merit to supercede all similar preparations, It is not surprising that you should be reluctant to try something else after the many experiments you have made on trashy compounds foisted on the public as a certain cure; but
NEWELL'S
PULMONARY SYRUP
is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of
NEWELL'S
PULMONARY SYRUP
and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that
NEWELL'S
PULMONARY SYRUP
has cured thousands and it will cu YOU if you try it: This invaluable medicine is pleasant to the taste: soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

ALL OVER THE WORLD

People of sense and judgment have learned o use
PLANTATION BITTERS.
Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, etc., can be cured by using PLANTATION BITTERS.
This is the most successful tonic of the age. Young, middle-aged and old are delighted with its effects.
The first trial always has a marked effect.
No change in diet is necessary. Eat all you wish, of the best and most nutritious food.
It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.
We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.
PHYSICIANS ARE COMPELLED TO RECOMMEND IT
CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France for the enormous price of its weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, etc.
CASCARILLA BARK.—For Diarrhœa, Colic and diseases of the stomach and bowels.
DANDELION.—For Inflammation of the Loins, and Dropsical Affections.
CAMOMILE FLOWERS.—For enfeebled digestion.
LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.
WINTERGREEN.—For Scrofula, Rheumatism etc.
ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.
Also clove-budge, orange, charaway, coriander, snake-root, etc.

S.T-1860-X.

Another wonderful ingredient, of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.
With this recipe before the community, and evidence of effects meeting them on all sides, the success of DR. DRAKE stands founded upon the rock of truth. Almost every family has some cases of suffering which the PLANTATION BITTERS will alleviate and cure.
They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.
NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.
Sold by respectable dealers throughout the habitable globe.

MEXICAN MUSTANG LINIMENT
The merits of this Liniment are well known. Its effects are instantaneous, soothing and wonderful.
Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.
It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.
READ THE FOLLOWING:
"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, etc., and all say it acts like magic."

Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp of DEMAS BARNES & Co. over the top.
An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*
Sold by all Druggists and Stores, at 25 and 50 cents and $1.

LYON'S FLEA POWDER.
It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of Fleas, Ticks, Bedbugs, Roaches etc.: that it is perfect poison to the insect tribe but entirely harmless to the human species and domestic animals.
Bedbugs, Ants, Roaches, etc., are in every house. This powder is their natural death. It should be in every cupboard.

DUTCH FLAT ENQUIRER.

LOVE IN A COTTAGE.

They may talk of love in a cottage
And bowers of trellised vine,
Of nature bewitchingly simple,
And milkmaids half divine.
They may talk of the pleasure of sleeping
In the shade of the spreading tree,
And a walk in the fields at morning
By the side of a footstep free.

But give me a sly flirtation
By the light of a chandalier,
With music to play in the pauses,
And nobody very near;
Or a seat on a silken sofa,
With a glass of pure old wine,
And mamma too blind to discover
That small white hand in mine.

Your love in a cottage gets hungry,
Your vine is a nest for flies,
Your milkmaid shock the graces,
And simplicity talks of pies.
You lay down to your shady slumber,
And wake with a bug in your ear;
And your damsel that walks in the morning
Is shod like a mountaineer.

True love is at home on a carpet,
And mightily likes his ease,
And true love has an eye for a dinner,
And starves beneath shady trees.
His wing is the fan of a lady,
His foot's an invisible thing,
And his arorw is tipped with a jewel,
And shot from a silvery string.

PUNS BY THE QUANTITY.—A volume, entitled "Puniana," has just been published in London, which is filled with jokes, good, bad and indifferent, the last two classes predominating. The following are among the least disreputable:

How do we know Lord Byron was good tempered? Because he always kept his choler down.

If a tough beefsteak could speak, what English poet would it name? Chaw-sir.

What authority would eye-glasses and spectacles mention if they could speak? You see by us (Eusebius).

Why is an author the most wonderful man in the world? Because his tale comes out of his head.

Why is the letter D like a squalling child? Because it makes ma mad.

Why is a water-lily like a whale? They both come to the surface to blow.

Why is a goose like a cow's tail? Because they both grow down.

THOUGHTS ON EGGS.—An egg like Ceaser's wife, should be above suspicion.

Is it probable that the old fowls lay stale eggs, and only the young hens fresh ones?

Eggs resemble roses being propagated by layers.

A hen cackles when she lays an egg, and so some stranger benefits by her production. *Moral:* Never cackle.

A fowl and her eggs are soon parted. Eggs are eggs, be they never so eggy.

"JULIUS, if a mob of chickens cost ten dollars, what will a pair come to?"

"Who bought 'em?"

"What yer ask dat for?"

"Cause, if my wife bought 'em, I could tell what they'd come to, mighty quick."

"Two potpies and a friccassee."

"Look here, my colored friend, don't come your circumambient jokes on dis child, or he'll broke yer jaw off short off by de handle."

THE Grand Jury in the county of Tiperary, in Ireland, passed the following resolution:

Resolved, That the present jail is insufficient, and that another ought to be built.

Resolved, That the materials of the old jail be employed in constructing the new one:

Resolved, That the materials of the old jail shall *not* be taken down until the new one is finished.

Angeline—"Oh, I was so taken up with the clothes of Miss Goldwraithe that I did'nt notice the close of the sermon."

IN describing a new organ, a country editor says.—

"The swell died away in delicious suffocation, like one singing a sweet song under the bed clothes."

VOLTAIRE says, a physician is a man who mixes drugs of which he knows little, to pour into a body of which he knows less, to cure a disease of which he knows nothing.

TRUTH is the only real lasting foundation for friendship; and in everything but truth there is a principal of decay and dissimulation.

MEN are often capable of greater things than they perform. They are sent into the world with bills of credit, and seldom draw to their full extent.

OLD roads newly rocked are very rough; old sinners newly converted are the most intolerant of all saints.

PACIFIC males—henpecked husbands. Every art is best taught by example; good deeds produce good friends.

IN Claridon, Ohio, the ladies have a Farmer's Club of their own, where they discuss domestic affairs, manners and morals.

THE latest Paris ballet is "Adam and Eve in Eden." It is before the fall, and they of course have their summer clothes on.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practicewill continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectabilityand high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power,s, palpitation of the heart, irritability, nervousnes extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

A CARD FROM THE AMERICAN WATCH COMPANY Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attemptep repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But thegreat distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; andalso ladies' watches in plain gold or the finest enam eled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

MEDICAL.

THE SCIENCE OF HEA TH!

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, ffiental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative actton of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter.	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poisen. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles iis dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Private Medical Institute,
No. 536 Washington street, San Francisco, Cal.

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after- ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, buess of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

Grover & Baker's
ELASTIC STITCH
FAMILY
SEWING MACHINES,
Are the best in Use,
FOR THE FOLLOWING REASONS

They are more simple and durable easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other. They sew all fabrics from two common spools, require no re-winding of thread, fasten both ends of the seam by their own operation, and though every fifth stitch is cut the seam will not rip.

They Stitch, Hem, Fell, Cord, Bind, Tuck, Quilt, Gather, Braid, and Embroider. No other machine Embroiders, as well as Sews perfectly.
